

# TMT Sector Update 2018

## Agenda

Thursday 17 May 2018

| Timings     | Sessions  |  |   |
|-------------|---|--|---|
| 09:00-09:30 | Registration & breakfast  |  |   |
| 09:30-09:35 | Introduction  |  |   |
| 09:35-10:30 | <b>Thorny developments in disputes:</b> This session looks at some of the key developments in commercial TMT disputes   | <b>Legal challenges of networks and infrastructures towards digitalisation</b>   | <b>Cybersecurity in a world of uncertainty</b>  |
| 10:30-11:30 | <b>The gathering storm behind the GDPR:</b> from May 2018, we anticipate a wave of new complaints, claims and contentious risk arising out of the GDPR. In this session, we discuss the data protection disputes and enforcement on the horizon | <b>Blockchain as a pan-sector solution</b>   | <b>Reach for [the] Sky:</b> A look at the background to the offers for Sky, the antitrust regimes and political considerations and the form of the competing transactions |
| 11:30-12:00 | Coffee  |  |   |
| 12:00-13:00 | <b>Data monetisation:</b> strategy and issues   | <b>A polarised world:</b> The "Philosophy" behind the cryptocurrency revolution  | <b>The real Black Mirror:</b> Navigating the law through the AI revolution  |
| 13:00-14:00 | Lunch   |  |   |
| 14:00-15:00 | <b>Creating a successful digital health business:</b> The founders of Doctor Care Anywhere will share their thoughts and experiences. The session will also consider some of the legal considerations to be navigated in this exciting sector   | <b>The Tech Talent Charter:</b> In this session we will explore the aspirations of the Tech Talent Charter and share our thoughts and insights on using it as a platform for increasing gender balance within your business  |   |
| 15:00-16:00 | <b>Data scraping and using big data:</b> This session will address the key risks and legal issues associated with scraping data and purchasing big data, including data privacy issues, IP risks and criminal liability                         | <b>TMT in Asia – The China dog barks:</b> China's adoption of innovative technology has been nothing short of astounding. To take Fintech as an example, reports put the value of online payments in 2017 at 100 trillion yuan (£11 trillion). What will happen next in Asia and how will it affect the rest of the world? |   |
| 16:00-16:30 | Coffee  |  |   |
| 16:30-17:30 | <b>Deloitte's TMT predictions 2018</b>  |  |   |
