

## Mining Legal Database

Our Mining Legal Database has been developed in conjunction with local counsel in response to demand from investors, financiers and developers of mining projects for clear, accurate and easily accessible information on the key legal issues to consider and be aware of in jurisdictions across Africa, Eastern Europe and Central Asia.

Available on a subscription basis, this service covers 43 jurisdictions across Africa and 16 in Eastern Europe and Central Asia. The content is based on information provided by local counsel that is reviewed and updated regularly and has been analysed by Simmons & Simmons.

This Mining Legal Database helps you to understand in each jurisdiction:

- the key mining laws and government entities
- the mining rights that can be acquired and their key terms
- local content restrictions
- optimal business structures for your investment
- regulation of transfer of funds, processing, sales etc.
- the taxation regime for mining companies
- the key environmental, health and safety and social responsibility laws
- the issues to consider in protecting your rights and dealing with disputes, and
- many other key issues.
