

Extension of SMCR: Identifying senior managers and related challenges

This webinar looks at the steps firms within the extension of SMCR should take to identify their senior managers.

This webinar has a particular focus on tricky issues such as extraterritoriality, how to manage your existing SIF population and statements of responsibility. It also covers the duty of responsibility and how to take reasonable steps, and how to create clear reporting lines. You will also receive a helpful reminder of the relevant provisions in the draft rules (including relevant comments for insurers).

This is the second of five webinars in a series on the Extension of SMCR.
