

## Financial Collateral

### How will it help me?

The Financial Collateral Reviewer provides 24/7 access to legal reviews of the factors that should be taken into account when lending to corporate, partnership, trust and individual counterparties on a global basis, for the purposes of determining the Basel III regulatory capital position. Local counsel have assessed lending licensing laws and regulations, perfection requirements, enforceability of security and the extent of a risk of a stay on enforcement of security.

### Regular updates

The Financial Collateral Reviewer is updated on a quarterly basis, with updates to the previous version flagged for your convenience.

### Interested?

Access to the Financial Collateral Reviewer is via subscription. Each subscription is on a group basis with an unlimited number of users.

To subscribe to the service, or if you would like a demonstration, please contact [Alice Sullivan](#).
